## AN AWFUL FIRE AT KNOXVILLE

At Least Five or Six Persons Are Cremated.

MANY ARE INJURED BY DYNAMITE

An Explosion Sends Bricks Flying Through the Air -- One Man Dies from Fright .- Heroic Work at Rescue -- List of Dead and Injured.

Knoxville, Tenn., April 8.-Never in the history of Knoxville has the city suffered such a loss by fire as it had today. The very heart of the city, including some of the largest wholesale and retail business houses in the south were destroyed. The loss is variously estimated at from one to one and a half million dollars with about 60 per

cent, of insurance. The loss of life is very uncertain the register of the Hotel Knox, in which fifty-six people were sleeping, was burned. The proprietor of the hotel says that he had five or six guests who have not put in an appearance. A. E. Weeks, of Locke, N. Y., drummer for a Rochester stamping company, is known to have perished in the flames. R. W. Hopkins, a St. Louis drummer, was last seen in the burning building in a suffocating condition. W. H. Kephart, exsecretary of the chamber of commerce, saved the life of John Bogle, an old farmer, by dragging him to a window and letting him out on the roof of another building. Kephart jumped one story and was injured. When the firemen thought all the inmates of the hotel had escaped, a woman with an infant in her arms rushed to a rear window and screamed for help. A net was quickly stretched and the woman asked to drop the child out, but the smoke almost choked her. She told them that if one had to die, both would die. The woman was finally rescued by the firemen from the hotel building. which is five staries. The fire spread east and west.

A large force of men are at work clearing away the debris tonight and searching for the bodies. The street car lines are completely tied up and all the electric companies have suffered. All the buildings are to be replaced

Severely Criticises Spain's Methods Against American Prisoners.

HEARD FOR THE THIRD DAY Mr. Nelson, of Minnesotn, Speaks for Two Hours on the Bankruptey Bill,

Opposing the Pending Torrey Bill as Excessively Harsh -- De Lome's Interviews. Washington, April 8 .- The senate today heard Mr. Morgan, of Alabama, for the third successive day on his

resolution declaring that a state of war exists in Cuba. He was severely critical of Spain's methods against American prisoners, and went over in detail the circumstances in the Competitor case. Mr. Morgan said he would close his speech at the next meeting of the senate, when he would present a letter from one of the Cuoan officials of the eastern province of the island, showing the complete civil system of government now maintained

by the Cubans. Mr. Nelson, of Minnesota, spoke for two hours on the bankruptcy bill, op-posing the pending Torrey bill as exressively harsh and designed as a colection agency for large creditors, and urging his substitute as a measure drafted in the interest of thousands of poor debtors struggling to get on their

#### M'KINLEY AND CUBA.

Interviews That Cause No End of

Amusement in Washington. Washington, April 8 .- After the disosition of the tariff bill it is possible the Cuban question may be taken up seriously. But there is not going to e anything done in a hurry. It is the intention of President McKinley to take the amplest time for the discussion of the whole vexatious problem. There is considerable amusement among senators over a so-called interview given out by the Spanish legation. Every now and then Senor Depuy De come has an interview prepared in his legation, either by himself or by some of his subordinates, in which he gives a rosy account of how "the late reports" show that the revolution is nearly at an end, and then he furnishes this 'interview" to the newspapers to be sent out as though they had asked for the inteview and as though they really believed there was a word of truth

Senor du Basc, the first secretary of the legation, is the alleged author of have been burned to the ground. The the latest "interview." In this he spoke of the very favorable reports coming from Cuba, and to substantiate this assertion he mentioned statements in

he Havana papers of recent date, Mr. du Base evidently thinks that the American peole are as ignorant as he assumes to be, in regard to what goes into the Havana newspapers, Everybody in this country knows that not a word is allowed printed in those papers, excepting it has first been submitted to the approval of a subordi-nate of General Weyler. Hence the authority of the Sanish legation for these 'favorable reports" rests solely on the preposterous falsehoods printed in the Havana newspapers by order of General Weyler.

ponding secretary of the branch. He admitted last night that he had taken \$600 belonging to the association, and had foolishly fled, rather than confess his error to his friends. He declared that he was ready to go back, and would waive requisition papers.

LEATHER MEN ORGANIZE.

Will Protest Against the Proposed Duty on Hides.

New York, April 6.-Representatives n this city of the leather, harness, shoe and kindred trades held a preliminary meeting today for the purpose of tak-ing action in reference to the proposed duty on hides. Charles Schieren, exmayor of Brooklyn, was chairman, Word was received from Philadelphia and Boston that the leather men in those cities were organizing and would co-operate with the organization here Chairman Schieren, in volcing the

sentiments of the meeting, said: "The trade has learned on reliable authority that the finance committee of the senate propose to take hides and skins from the free list and put two cents per pound duty on them. Such action by the government means the utter destruction f our export trade in leather, shoes, etc. Since 1871, when hides were placed on the free list we have built up an enormous export trade which amounted to over \$20, 000,000 and gave employment to over 100,000 workmen in the tanneries and shoe factories last year. The shoe men are now beginning to export their shoes to South America and other countries with great success. In leather belting we export to

almost every country on the globe. "Within the past two years we have been enabled to meet the prices of foreign manufactures, especially the English and German. All this trade will revert again to the English and German if our government places a duty on raw material and will be entirely lost to this country. Hides being a by-product a duty will not benefit the farmer because cattle are bought not for their hides simply, but for the beef. The farmer would not receive any benefit of the profit going to cattle slaughterers."

The admirals of the foreign fleets and

the consuls held a meeting this morning at Suda. The question discussed was whether the consuls should renev parleying with the insurgent leaders It was decided not to do so. The Mussulmans of Sitie are suffering from want of water, the wells of the town not sufficing to supply their needs, and the insurgents drive the Mussulmans back whenever the latter make

attempts to obtain water outside of the town, in spite of the protection afforded by the fereign warships in Sitia Bay. The barracks occupied by the Italian marines, doing duty on shore at Candia,

Special to the Scranton Tribune

Mrs. H. H. Crary.

Oneonta, N. Y., April 8 .- At this even ing's session of the Wyoming confer ence the anniversary of the Freed man's Aid society was observed. Rev. C. E. Mogg presided. The conference has raised this year by collection for this society \$2,001. Mrs. H. H. Crary, of Binghamton, made a special gift of \$5,000 for the cause. Dr. Reise, secre tary of the society, delivered a stirring address. He compared the north and south in relation to their finances. their schools and possibilities and ideas for religion. The school property of the state of New York is worth more than all that of the south, with the exception of one state.

The south is getting on its feet. The poor whites of the south are as degrading to our civilization as heathenism would be. While we pay out \$8 for education in the north, we only pay \$1 in the south. The great need of that southland is an educational ministry. There were 193,494 more white illiter ates in the southern states in 1890 than in 1880. Our duty is to appreciate our condition and to sympathize and help that people, for that land produced a Peter Cartwright, a Bishop McKendree and an Abraham Lincoln.

The devotional exercises were led this morning by James L. Race. The third session was called to order with Bishop Warren in the chair. A committee consisting of Revs. E. B. Olmstead, Austin Griffin and M. S. Hard was appointed to confer with the railroads running to the place of confer-Revs. J. G. Eckman, M. S. Hard, H. A. REPORTS READ. The thirteenth question was taken up. The character of it was called begin-ning with the presiding elder. The

character of Rev. A. J. Van Cliffe, presiding elder of Oneonta district, was passed and he read his report. Notwithstanding the financial depression the year was one of prosperity. A new church was built at Sidney Center, a parsonage at Mundella. Revivals were held on most of the charges and 700 conversions were reported,540 have b received on probation. The Epworth League convention and the preachers' meetings proved helpful. There are about 1100 more members in the district than six years ago, and there has been an increase of \$50,000 in church property. \$60,000 has been paid on old indebtedness. The character of W. L. Thorpe, presiding elder of Honesdale district, was passed and he read his report. \$4,000 has been expended during the year for building and repairing church property. Honesdale church viil soon observe its twenty-fifth anniversary and a committee has been appointed to arrange for the same. Eight hundred conversions are reported; finances are fully up to last year and

most of them will be in advance of last The character of H. M. Crydenwise was passed and he read his report. The camp meetings, Epworth League and missionary conventions have proved a blessing to the people. All the benevolence are well sustained. There is over \$160 advance over last year. In the midst of his reading his emotions vercame him, and the conference sang, "Jesus, the name high over all." has traveled during his term 27,000 miles, and has preached on an average of five times a week. Missions have advanced from \$1.428 to \$2,380. Rev. Luther Peck being obliged to return, was permitted to address the conference. The fire burns in his soul as it did fifty years ago, when with saddle bags he started out. The conference was invited to visit the Normal school and Saturday at 2 p. m. was fixed as a

The character of L. C. Floyd, presiding elder of Binghamton district, passed, he read his report. Nearly \$7,000 has been expended in church repairs during the year. There is an advance of \$118 on missions. A resolution was passed thanking Mrs. H. H. Crary for her gift of \$5,000 last year to the church extension society and \$5,000 this year to the Freedmans' Aid society. Rev. J. G. Eckman, presiding elder,

was sa follows: The grand army of Christian workers The grand army of Christian workers within the boundary of Wyoming district have concluded another ecclesiastical year of heroic effort, sacrafice and spiritual conquest. The pastors have done valiant service, and whatever has been accomplished bears the marks of their leadership. Each one has written a book in noble deeds, making a library too voluminous for me to review in the short space of fifteen minutes, I shall, however, briefly outline the leading results of their labors, which evinces a zeal comparable with that of the founders of our beloved Methodism.
